

## 1 Title

All of the above is what I have been trained to do and what I have wanted more than anything to do for a while. I have also been given the choice of not doing anything with my life or to not doing anything with the world. I have been forced to to work hard to get a better job and work hard to get a better career that has paid off. I have been forced to take the risks of doing my life for which I have always been passionate and to learn to take risks and to do what I love to do. I have lain in the shadows of the world and have grown up in it without ever being given the chance to truly get a voice in the world.
