

1 Title

I graduated Caltech from MIT with a degree in Biotechnology and the Bioengineering of Protein in 1994. In 2002, I accepted a position with a leading leading, global research university in Japan. As a result of my position I gained many prestigious awards, including the Nobel Prize for Physiology or Medicine, the European Distinguished Service Medal, the Nobel Peace Prize, the European Heart Foundation Olympic Prize, the European Foundation for Human-to-Human Transplantation, the European Society for the Protection of Human Life, the German and Japanese Agricultural Research Council, the European Society for the Protection of Human Life and Social Development, the European Society for the Protection of Animals and the European Society for the Prevention of Cruelty to Animals.
