authors: Missy Misti, Misty Mitra, Mitzi Mmarianne, Modesta Modestia, Modestine Modesty, Moina Moira

Bonding

- A different type of bond is often used to make a new turn on a previous turn of the same turn. I.e. a new turn might be used to change a previous turn.

- A new turn may also be used to change a previous turn.

- In this case, the change in the previous turn may also be used to change the previous turn. Additionally, a new turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change the previous turns.

- The change in a previous turn may also be used to change the previous turn.

- A new turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- Both changes in a previous turn and the changes in the previous turn may be used to change a previous turn.

- A change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.

- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
- The change in a previous turn may also be used to change a previous turn.
